Advanced Immunology

13 – 17 January 2025

Infection & Immunity Utrecht

Tel: 088 755 4967

E-mail: phd-program-ii@umcutrecht.nl

Monday 13 January

Theme: **Innate Immunity**

10.30 – 11.30	Heterogeneous immune cell populations in space and time- part I	Nienke Vrisekoop
---------------	---	------------------

11.30 – 11.45	<i>Break</i>	
---------------	--------------	--

11.45 – 12.45	Heterogeneous immune cell populations in space and time- part II	Nienke Vrisekoop
---------------	--	------------------

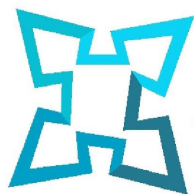

12.45 – 13.15	<i>Lunch break</i>	
---------------	--------------------	--

13.15 – 14.45	Complement and infections	Suzan Rooijackers
---------------	---------------------------	-------------------

14:45 – 15.00	<i>Break</i>	
---------------	--------------	--

15.00 – 16.30	Microbiome	Marcel de Zoete
---------------	------------	-----------------

Tuesday 14 January

Theme: T-cells

09.30 – 11.00 Human T cells in time and space Theo van den Broek

11.00 – 11.15 *Break*

11.15 – 12.45 Quantification of T-cell dynamics in health and disease Jose Borghans

12.45 – 13.15 *Lunch break*

13.15 – 14.45 immune regulation by inhibitory receptors Michiel van der Vlist

14.45 – 15.00 *Break*

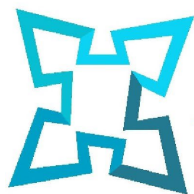

15.00 – 16.30 Dendritic cells Esther de Jong

Wednesday 15 January

15.00 – 16.30	Mutational cancer signatures	Ruben van Boxtel
---------------	------------------------------	------------------

Thursday 16 January

Theme: B-cells

09.30 – 11.00 B cell development and selection Balthasar Heesters

11.00 – 11.15 *Break*

11.15 – 12.45 Novel approaches for treatment of B-cell malignancies Victor Peperzak

12.45 – 13.15 *Lunch break*

13.15 – 14.45 Tolerogenic dendritic cells in autoimmune disease Arjan Stoppelenburg

14.45 – 15.15 *Break*

Eijkman Lecture*
15.15 – 16.30 Towards personalized medicine for rare genetic diseases Marielle van Gijn

**The Eijkman Lecture is a public lecture, others may join.*

Friday 17 January

14.00 Evaluation & certificates
